

## CPP SAT (2016) vs ACT (2016-11-03)

### Comparison Summary

<b>SAT</b>
Max Score: 1600
Total Score: <b>1600</b>
ACT Equivalent: 36

You Scored Equally Well on Both

<b>ACT</b>
Max Score: 36
Composite Score: <b>36</b>
SAT Equivalent: 1600

		<i>Math</i>	<i>Evidence-Based Reading &amp; Writing</i>				
<b>SAT</b>		800	800			<i>Total</i>	<b>1600</b>
<b>SAT Test Scores</b>	<i>Reading</i>	<i>Writing</i>	<i>Math</i>				
	40	40	40				
		<i>Reading</i>	<i>English</i>	<i>Math</i>	<i>Science</i>	<i>Composite</i>	
<b>ACT</b>		36	36	36	36	<b>36</b>	

SAT section scores are reported on the traditional 200-800 scale. SAT test scores are reported on a 10-40 scale. Both sets of scores are reported by College Board and are required to convert redesigned SAT to previous SAT scores.

## ACT Overview

### By Difficulty

### Information that Will Help You Increase Your ACT Score

If your score was low because you did not finish all of the questions, you can dramatically improve your score by learning how to pick up your speed. To score high on the ACT you have to process the material quickly. The ACT offers considerably less time than the SAT does to answer far more questions than the SAT presents. If you did very well on the work that you completed, but did not finish the test, consider focusing on how to pick up your speed.

## SAT Overview

### By Difficulty

### Information that Will Help You Increase Your SAT Score

To score high on the SAT you have to unravel tricky questions that are designed to confuse you. If you missed questions because you misunderstood what was being asked, but understood the material you were asked to make sense of, then focus on how to discern what an SAT question is really asking. The SAT presents convoluted questions to measure your reasoning skills; make sure you're crystal clear on what's being asked before you start to solve the problem.

## Section Summary — ACT Reading

### Summary

Your Score: **36**  
 Percentile: **99**  
 Correct: **20**  
 Incorrect: **0**  
 Omitted: **0**  
 % Correct: **100%**

### By Difficulty

### To Improve ACT Reading Score

If you did not finish all the work but correctly answered 80 percent of the questions you completed, focus on picking up your speed. You have 35 minutes to read four different passages (approximately 850 words) and answer 40 questions. While doing homework each night, work on bringing more focus and speed to your reading assignments.

### By Difficulty

### To Improve ACT English Score

If you did not score as high as you would have liked, focus on removing unnecessary text. Sixty percent of the correct answer choices on this test pertain to removing unnecessary words and punctuation. Just over 20 percent of the sentences are grammatically correct and do not need to be changed.

### By Difficulty

### To Improve ACT Math Score

If you did not score as high as you would have liked, memorize the basic formulas you learned in Algebra I, Geometry, Algebra II and Trigonometry. The ACT does not provide formulas. When you practice ACT questions, make sure to note the math topics and the necessary formulas; this will help you to memorize them.

### By Difficulty

### To Improve ACT Science Score

If you were unable to finish the test, but got 80 percent of what you completed correct, then consider staying with the ACT. Take no more than 45 seconds to skim a passage and then go to the questions and look for answers in the figures, tables and graphs.

### To Improve SAT Reading Score

As you read each of the five sections look to understand the author's point of view. Read to grasp what's stated and what's implied. All of the reading questions fall into three categories: 1) information and ideas, 2) rhetoric (how the language is used), 3) synthesis (comparison questions). As you read keep in mind that all of the questions will be based in these three categories.

### To Improve SAT Language Score

Read an entire paragraph before attempting to answer a question. By reading the paragraph first you'll grasp the tense to use, the words to delete, the information to add, how best to combine sentences, add a sentence, or end a passage. The trick is not too rush and too fully understand the essay you're editing.

### To Improve SAT Math Score

SAT Math is all about understanding data and statistics. Students should review different data types -- two-way tables, bar graphs, line graphs, and histograms, for example -- to ensure that they understand the data provided. Rereading these types of questions is also highly recommended.

#### An explanation of the SAT Scoring Scale

The SAT Math Section is scored on the traditional 200 to 800 scale. The SAT Language and SAT Reading sections are scored from 10 to 40. Students can calculate their points earned on these sections by multiplying their score by 10. For example, a student who scores 33 on the SAT Reading earns 330 points out of a possible 400 available on that section.

#### Why Wrong and Omitted Answers Are Noted in Red and Gray

There is no penalty for wrong answers on either the redesigned SAT or the ACT; points are not deducted for incorrect answers. Therefore, omitted answers are noted in red. This coloring is to remind students that they should never skip a question. If the student runs out of time, they should bubble answer choices for all of the questions
